A super timesaver

Here's one tool I just can't do without: the Flux InDesign Eyedropper tool.

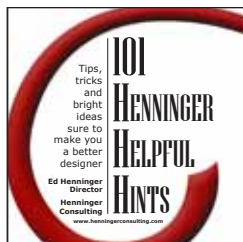

Created by Flux Consulting, it's a real time-saver for InDesign users working on Macs. With it, you can pick up colors, formatting and styles without switching tools.

You can temporarily access the Eyedropper tool by holding down the Control + Option

keys, allowing you to pick up formatting for your text or objects without using the mouse. Once the keys are released, you're back in the previous tool.

Eyedropper is a bit pricey at about \$30 for the InDesign 4 version. Eyedropper for InD3 and InD2 is less expensive.
